

## Enrichment Syllabus 2012-2013 School Year

**Description:** JCP's high expectations require that our students are well-rounded individuals with diverse and meaningful experiences. In addition to the academic credits students are expected to take throughout each year, we also require that students accumulate one enrichment credit prior to receiving their diploma. These enrichment credits are credits students receive for attending classes outside of the regular school day.

**Requirement:** Enrichment is a promotion requirement. If students do not fulfill the 0.25 of enrichment credit each year, they will be required to attend summer school at a \$140 fee or repeat the year. Students will need 1.0 credit for graduation. Students may only apply 0.5 sports credits toward their graduation requirement. At a minimum, transfer students will have to complete an additional requirement of 0.25 enrichment credits for each semester they did not attend JCP. This requirement is in addition to their grade level requirement. These additional enrichment credits must be earned before being promoted to the next grade.

<u>Grade Level</u>	<u>Promotion Requirement</u>	<u>Graduation Requirement</u>
Freshmen	0.25 credit	1.00
Transfer Freshmen (Semester 2)	0.50 credit	1.25
Sophomores	0.50 credit	1.00
Transfer Sophomores (Semester 1)	1.00 credit	1.50
Transfer Sophomores (Semester 2)	1.25 credit	1.75
Juniors	.75 credit	1.00
Seniors	1.00 credit	1.00

**Earning Enrichment Credit:** There are multiple ways students may earn enrichment credit, including but not limited to:

- Participating in an enrichment course
- Participating in a sport
- Participating in an approved outside enrichment course/sport/program
- Classes on college campuses for credit
- Classes taken in night school or summer school that are not due to failure
- Unpaid internships
- Tutoring/teacher-assistant roles

**Enrichment Credit at JCP:** Johnson College Prep will offer an array of exciting and engaging enrichment courses and sports. Students will have the opportunity in semester 1 and semester 2 to enroll in an enrichment course or sport at a fee of \$25.

**Enrichment Credit Outside of JCP:** In order to receive any credit from an enrichment program that takes place outside of school, you must provide documentation on the organization's letterhead from your teacher/supervisor/coach that includes the following information:

- Verification of how many hours you completed for the program (minimum of 25 hours to earn .25 enrichment credit)
- Documentation of course content/program details – what was taught/learned
- Supervisor contact information: name, job title, telephone number, email
- The deadline for outside enrichment approval is Monday, June 10, 2013 at 4:30 p.m.

**Attendance:** Classes will meet weekly for 2.5 hours. After four absences (excused or unexcused) students will be at risk of being removed or failing the course. Special circumstances may be taken into account and enrichment instructors may offer make-up sessions and extra credit opportunities. The tardy policy is as follows:

- 1 minute late = 1 Demerit
- 2-3 minutes late = 2 Demerits
- 4 minutes late = Detention

**Failure:** Should a student fail the enrichment requirement for the year, he or she will be required to pay a \$140 fee and attend a summer school course; otherwise he or she will be retained.
